

Second Announcement and Call for Papers for the

V Congress of the Mathematicians of Macedonia

September 24 – 27, 2014
Ohrid, Republic of Macedonia

Organized by the Union
of Mathematicians of
Macedonia

Dear colleagues,

It is our great pleasure to inform you that the Union of Mathematicians of Macedonia is organizing the V Congress of Mathematicians of Macedonia that will take place in the ancient and wonderful city of Ohrid, from September 24 to September 27, 2014. The Organizing Committee invites you to participate in the V Congress meeting, that has an international character. The goal of the Congress is to contribute to the development of mathematics and its applications and to bring together the members of the mathematical community, researches and educators of mathematics from Macedonia and all over the world.

CONGRESS THEMES

- Algebra
- Differential equations
- Geometry and Differential Geometry
- Numerical optimization and Approximations
- Probability and Statistics
- Real and Complex Analysis
- Topology and Dynamical systems
- Mathematical Aspects of Computer Science
- Mathematical Methods and Modelling in the Sciences
- Mathematical Finance, Actuarial Mathematics and Modelling in Economy
- History and Education of Mathematics and Informatics
- Other Related Topics

The Congress will also incorporate several workshops covering multiple themes:

- Training curricula and programs in mathematics,
- Testing and evaluation - current trends in mathematics education,
- Discovering and working with students gifted for mathematics,
- Geogebra,
- Application of ICT in teaching.

Proposals for other workshop themes are welcome. You can submit your proposal to the chair of the Programme Committee by April 15, 2014.

The registration fee for workshop participants that are not presenting is 10€ and the registration fee for workshop participants that have a presentation is 40€.

Presented papers, after reviewing, will be published in:

- The proceedings of the V Congress of the Mathematicians of Macedonia, to be published after the conference,
- Matematički Bilten (Bulletin Mathématique de la Société des Mathématiciens de la République Macédoine-indexed in MathSciNet and Zentralblatt MATH).

The official languages of the V Congress of the Mathematicians of Macedonia are Macedonian and English.

IMPORTANT DATES

Registration:	April 15, 2014
Workshop proposal submission:	April 15, 2014
Submission of abstract:	May 15, 2014
Notification of acceptance:	May 31, 2014
Deadline for registration fee payment	September 1, 2014
Submission of full paper:	November 30, 2014

REGISTRATION

The online registration is available at the Congress website: <http://www.cmm2014.ukim.edu.mk>

REGISTRATION FEE	Participants	120 Euro
	Accompanying persons	30 Euro

The registration fee for the participants includes: conference bag, abstracts booklet, cocktail after opening ceremony, coffee breaks, one excursion, farewell dinner, access to all lectures and workshops, internet, Proceedings of the V Congress of the Mathematicians of Macedonia and Matematički Bilten that will be sent additionally, after publishing.

Registration fee for the accompanying persons includes: cocktail after the opening ceremony, one excursion, farewell dinner and internet.

The Organizing Committee of the V Congress of the Mathematicians of Macedonia approves discount for students on a previously submitted request.

Please make the registration fee payment to the following account:

For payments from abroad: Beneficiary: SOJUZ NA MATEMATICARI NA MAKEDONIJA Bank name: Komercijalna Banka AD Skopje Account: 0270100300114 IBAN: MK07300701003001147 Indication: Participation fee for CMM 2014	For payments from domestic banks: Корисник: СОЈУЗ НА МАТЕМАТИЧАРИ НА МАКЕДОНИЈА Банка: Комерцијална банка – АД Скопје Жиро сметка: 300000001276071 Цел на уплата: Котизација за учество на CMM 2014
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Your payment should specify that all bank charges are at your expense.

ABSTRACT SUBMISSION

Information about abstract submission can be found on the Congress website.

CONGRESS VENUE

Ohrid is located 160 km from Skopje to the southwest and has its own airport - 10 km away from the city centre. It is about 700 m above sea level. The climate is continental with moderate temperatures during the whole year.

It is a well-known cultural, historic and tourist centre. It is known for its beautiful Ohrid Lake - chartered by UNESCO as one of the oldest lakes in Europe and in the world. Ohrid is called Jerusalem on the Balkans due to its numerous churches (more than 300). The first University in Europe was situated here. Learning about this town makes one feel like going through the whole history of this biblical country.

EXCURSIONS

Several trips will be organised, each giving the opportunity to visit a different part of the country.

A. Pelister - Bitola - Heraclea

Pelister is the oldest national park in the country. As part of the Mountain Baba, it is located between the ravines Prespa and Pelagonia. Pelister is characterized by lush, well-watered forests and unique geological formations, which include layers of Palaeozoic and Mesozoic magma rock and layers of quartz. The core of the mountain is made of granite that is some 465 million years old. The mountain has a large number of peaks that are higher than 2000 m and are separated by deep valleys. The park is also rich in springs, streams and rivers, and contains two glacial lakes known locally as the Mountain's Eyes.

Bitola is a city in the south-western part of the country. The stately old architecture of Bitola hearkens back to more than a century ago when the town was a centre for international diplomats to the Ottoman administration, supplanting Skopje and becoming known far and wide as the "city of the consuls." Even today, some of the faded elegance of that bygone time can be seen in the neoclassical facades of downtown buildings and the old gentlemen conversing in Bitola's flowering park, all decked out in their finest Sunday suits and hats.

Famous for its dazzling mosaics, ancient theatre and Roman baths, Heraclea is the most vividly preserved ancient city in the country. Founded in the 4th century

B.C. and conquered by the Romans two centuries later, it was built on the Via Egnatia and became one of the key stations on this trading route. From the 4th - 6th century A.D. Heraclea also had an Episcopal seat. The first excavations were done before the First World War, but only since then have the full glories of the ancient city been revealed. Beautiful Roman baths, the Episcopal church and baptistery, a Jewish temple, portico and a Roman theatre now used for summer concerts and theatre shows are all in excellent condition.

B. Sightseeing of the old city of Ohrid.

The old city of Ohrid and its vicinity abound in magnificent ancient archaeological sites and monasteries dating from the early 12th to the 18th century, adorned with unique mosaics, frescoes, wood carvings and other relics and artefacts. The lake, the mountains around it, the city's architecture, its museums, restaurants and cafes offer the visitor a remarkable range of sightseeing, walking and leisure-time activities. The excursion includes the visiting of several of Ohrid's churches, Samuel's Fortress, the antique theatre and Ohrid's shopping district.

C. Excursion by boat to the springs of the river Drim and the monastery complex St. Naum to the southeast side of the Ohrid Lake.

D. Struga - Vevchani.

Struga is renowned for its International Poetry Festival and abounds in examples of old architecture. The village of Vevchani is famous by its 14 centuries old carnival and the most interesting springs in the country, known as the Vevchani springs.
